Location Of Kindle Download Mac

Change Download Location Kindle Kindle App For Mac Download Change Download Location Kindle One way to get a document onto your Kindle Fire HD is to sideload, or transfer, it from your PC or Mac by using the Micro USB cable that comes with Kindle Fire HD. The location is shown under Content Folder Your Kindle Fire HD appears like an external drive on your computer when attached using a Micro USB cable. The Kindle is one of Amazon's biggest successes Most of the books you can download on Amazon use the proprietary AZW file format, even though Kindles also support MOBI files. 3Double-click the Internal Storage folder and then click and drag files from your hard drive to the Docs folder in the Kindle Fire HD window. You can also copy and paste documents from one drive to the other Drag documents to the Documents folder, pictures to the Photos folder, audio files to the Music folder, and so on. To sideload documents to your Kindle Fire HD, grab the Micro USB cable and then follow these steps: 1 Attach the Micro USB end of the cable to your Kindle Fire HD and attach the USB end of the cable to your computer. Because the AZW Aug 17, 2015 Your Kindle Fire HD will appear as a drive in Windows Explorer on a Windows computer or the Mac Finder on a Mac. 2 Click the appropriate choice to open and view files on the drive that appears You can always find the exact location by opening the Kindle app and choosing Preferences from the Kindle menu.
